Reason for the event and main guidelines

NGOs of the Third sector of social action contribute strongly to improve the access to rights as well as access to employment, of groups at risk of exclusion.

The effort towards the labour market insertion in an active inclusion context through the community financial instruments such as the European Social Fund, provides good practices and also entitles the Third Sector to propose measures on social and employment policies.

This conference will contribute to the European Year for Combating Poverty and Social Exclusion in 2010.

It will help to highlight the activity of the Third Sector of Social Action in promoting employment of people with fewer possibilities, creating synergies with public policies, at national, regional and local levels, in particular the fight against discrimination and the promotion of equal opportunities and social inclusion.

Best practice will be introduced, proposals to the employment policies will be suggested and a debate in regard to the new programming period of the structural funds will be open as an outstanding instrument, adding value to active inclusion policies.

Finally, this conference will allow to share good practice at European level in order to provide with likely coordinated actions.

Goals of the Conference

This conference is held in order to:

- Encourage the discussion, the dialogue and the sharing of good practice related to the social and labour insertion under the Spanish Presidency.
- Create a forum composed by administrators and managers of equal opportunities initiatives co-funded by ESF, presenting the management of the Operational Programme of Fight Against Discrimination by private bodies of Social Action, as a unique experience in the EU in the last programming period 2000-2006 as well as in the current period 2007-2013.
- Disseminate the role played by the Third Sector of Social Action and its contribution to the employment and active inclusion policies. From the point of view of people and entities of social action, and also from the ability to make proposals and to have political impact.
- Sensitize the Spanish (national and regional) and European authorities about the need of medium and long term sustainability of this kind of initiative. In this sense the OP co-funded by FSE is a reference and a model to be followed in the next programming period of the Structural Funds.

- Create a networking setting to facilitate the effective carryout of activities included within the 4th Axis of the National Strategic Reference Framework of the Spanish ESF. This Conference should facilitate the transnational and interregional cooperation (art. 3.4 ESF Regulation) through the opportunity to contact potential partners and create partnership networks.
- Promoting the mainstream approach concerning non discrimination. This should guarantee a proper application of the European legislative regulation highlighting its main and fundamental principles and obtaining an active social support regarding non discrimination and equality.
- Help to find out the role played or to be played by managers of bodies of social action in the development of institutional OP (at national or regional level).

Brief description of contents

This will be an event with a high technical and political significance led by the Secretariat General for Employment, ESF managing Authority of Spain and NGOs involved in the management of the ESF and working very closely with disadvantaged groups in access to labour market. The following contents will be developed:

- Effects of a number of policies in situations of exclusion and accessibility to employment for people suffering discrimination and social inequality.
- Impact of inclusion and employment policies in situations of poverty and exclusion.
- The added value of ESF in inclusion and employment policies, particularly in equal opportunities for job placement of disadvantaged groups or at risk of exclusion.
- The example of good practice in the Community Funds Management by the Third Sector Entities of Social Action.
